

Looking for a job?

With SimpleXX to your dream job - your path to success!

Facility Engineer (m/f/d) for Aviation

Start as a Facility Engineer with us into a joint and successful future. As a specialist and personnel supplier for the aerospace industry for decades and in partnership with renowned companies in the aviation industry as well as aviation pioneers, SimpleXX GmbH is looking for a Facility Engineer for the Weßling site at the next possible date within the framework of temporary employment with a takeover option. You will plan and implement infrastructure projects. Furthermore, you will ensure a seamless integration of specialized equipment into building systems for optimal functionality. Working for our client as an aviation company, you can expect challenging activities in an innovative working environment that is future-proof and offers you excellent career opportunities. Do you have a high level of self-motivation and the corresponding commitment? Does this appeal to you? Then apply for our job offer today. We look forward to receiving your application!

The following tasks await you:

- Plan and implement infrastructure projects – e.g. for electric systems, HVAC, fire protection systems
- Ensure seamless integration of specialized equipment into building systems for optimal functionality
- Perform and coordinate trouble shooting, maintenance and repair activities for test and production facilities
- Contract and manage facility service companies
- Lead the integration of a maintenance framework, PPM schedule (TPM) and related processes for the production facility / equipment
- Maintain the spare part and equipment storage including regular inventory checks
- Supervise and coordinate external companies such as suppliers or contractors and facility services
- Identify facility related issues and perform root cause analysis
- Drive and support improvement projects together with various stakeholder to prevent incidents

Your profile:

- A completed technical apprenticeship, or a university degree in Engineering or an equivalent qualification
- Work experience in a Facilities Engineering role or similar (apprenticeship will be credited)
- Strong knowledge of building systems such as electric systems, HVAC, air supply or fire protection
- Capability to evaluate technical work
- Understanding of safety regulations, codes, and standards applicable to building systems
- Certified electrician and electrical work experience is an asset
- Ability to perform tasks accurately according to internal processes, safety and security regulations
- English minimum B2, German minimum B1
- A motivated, proactive, autonomous and structured working style
- **Working on-site (remote work possible) and submission of English resume required**
