*With SimpleXX to your dream job - your path to success!*

# Mechanical Technician for Energy Testing - Test Operations (f/m/d) for Aviation

Start as a Mechanical Technician with us into a joint and successful future. As a specialist and personnel supplier for the aerospace industry for decades and in partnership with renowned companies in the aviation industry as well as aviation pioneers, SimpleXX GmbH is looking for a Mechanical Technician for the Weßling site at the next possible date within the framework of temporary employment with a takeover option. You will play a pivotal role in ensuring the success of our innovative technology. Moreover, you will be responsible for consulting for a production-oriented design, procuring material, products, and semi-finished components, and manufacturing mechanical components and structures. Working for our client as an aviation company, you can expect challenging activities in an innovative working environment that is future-proof and offers you excellent career opportunities. Do you have a high level of self-motivation and the corresponding commitment? Does this appeal to you? Then apply for our job offer today. We look forward to receiving your application!

### The following tasks await you:

- Consult for a production-oriented design, procure material, products and semi-finished components, manufacture or finish mechanical components and structures by processing of various materials (metal, plastic, wood) and assemble and maintain test beds & rigs including the setup and adjustment of equipment and machines
- Manage projects for the design, procurement and assembly of test fixtures and proactively make improvements
- Support during commissioning, maintenance, and calibration of test benches
- Instrument test benches and execute simple tests autonomously (e.g., on battery cyclers)
- Participate in administrative tasks to develop and maintain the functionality of the Technical Operation (TO) Team and its facilities (e.g. in the creation of processes, templates, and technical documentation)

### Your profile:

- Education as mechatronics technician, assembly technology specialist, or a similar educational background
- Professional experience and broad technical understanding of mechanical and plant engineering
- Knowledge and experience with electrical systems (particularly energy storage systems)
- Experience in working in a test environment in the automotive or aerospace industry highly appreciated
- Knowledge of manufacturing, assembly, modification, and repair of mechanical products by manual and machine-supported processing, such as milling, lathing, sawing, drilling, welding, bending, grinding, cutting, screwing, riveting, soldering, bonding
- Organizational and networking talent, efficient in the operation of standard IT software (e.g., MS office) and the ability to learn other software tools (e.g., Jira and Confluence)
- Good English language skills required, German skills is a plus
- Drivers license class B (car) required
- **Working on-site and submission of English resume required**
