

Looking for a job?

With SimpleXX to your dream job - your path to success!

Senior Project Manager - Battery Cells (f/m/d) for Aviation

Start as Senior Project Manager - Battery Cells (f/m/d) with us into a joint and successful future. As a specialist and personnel supplier for the aerospace industry for decades and in partnership with renowned companies in the aviation industry as well as aviation pioneers, SimpleXX GmbH is looking for a Senior Project Manager - Battery Cells (f/m/d) for the Weßling site at the next possible date within the framework of temporary employment with a takeover option. You will ensure the team and key stakeholders understand status versus the objectives and are clear on what actions are required to deliver those objectives. Working for our client as an aviation company, you can expect challenging activities in an innovative working environment that is future-proof and offers you excellent career opportunities. Do you have a high level of self-motivation and the corresponding commitment? Does this appeal to you? Then apply for our job offer today. We look forward to receiving your application!

The following tasks await you:

- Management & Coordination - Ensure the team and key stakeholders understand current status versus the objectives and are clear on what actions are required to deliver those objectives. Unleash creativity and innovation from the project team toward maximizing operational and delivery performance. Encourage delivery ownership with the people delivering the work.
- Program Deliverables – Manage the Project Objectives on behalf of the Head of Functions and ensure the teams have planned and scheduled all work within their scope in line with those objectives. Optimize scope, trading and allocating the available time, quality requirements, budget and resources. Drumbeat the delivery of tasks and firm deliverables in line with the objectives. Ensure the basics of schedule, cost, resource, risk, opportunity and industrialization are done brilliantly and factored into technical decision making by the teams.
- Deploy the Program Governance model within the project team and lead the team through the processes. Share best practices across the PMO. Provide coaching to the Project Managers and Scrum Masters.

Your profile:

- University degree in a technical field (e.g. Engineering) or experience in a **technical environment** in lieu.
- Proven Project Management skills with a minimum of **5-8 years Project Management experience**, ideally within a complex aerospace environment.
- Excellent understanding of all **Project Management fundamentals** including scheduling, risk management, estimation, project communications and budget and resource management.
- Demonstrable experience in managing/ coordinating cross-functional teams.
- Experience in battery cell projects highly desirable.
- Ability to probe and challenge assumptions and experience in JIRA highly appreciated.
- Practical experience in a range of Project Management methodologies including **predictive Project Management** and **Agile Methodologies**.
- Preferably hold a PM qualification equivalent to IPMA Level C or higher as well as Scrum Master or other Agile Project Management qualification.
- Enthusiastic to learn and adopt his/her style to a start-up environment.
- Excellent communicator in English, fluency in German would be beneficial.
- **Working on-site** (remote work possible) and **submission of English resume required**
