Senior Product Designer (m/f/d)

Start today as Senior Product Designer for brighter future. We are looking for a suitable candidate to support one of our clients in Berlin, London, or Nuremberg. Your tasks are, but not limited to, disseminate design thinking and design across the product org as well as support the shaping of product roadmaps. With over 9,000 employees, our client is one of the world's largest providers in its sector and, with over 9,000 employees, the market leader in Germany and in the Top 5 worldwide. Demanding jobs await you in an innovative and international work environment. Do you have high self-motivation and commitment? Then apply today for our job offer!

Your responsibilities:

- Create, maintain, and manage a multi-product design system at a platform level
- Own design system components - from concept, to documentation, to code
- Take visual routes, platform principles, and concepts into implementation to evolve the look and feel of our platform design language
- Advocate for and embed the design system across the platform portfolio - supporting designers and engineers across different products
- Proactively look for opportunities to improve and enhance the design system with a view to improving metrics

What we are looking for:

- Demonstrated leadership expertise in the creation, design, and implementation of a large-scale commercial design system.
- Experience with Figma at an advanced level
- To ensure that all users can enjoy our product, we have experience designing for accessibility and usability.
- Exceptional attention to detail
- Ability to communicate with programmers and speak their language
- A natural collaborator who can collaborate with designers and developers to fully comprehend intricate specifications

Location: Berlin, London or Nuremberg, **3 days remote possible**

Start Date: ASAP or upon agreement
