Mit SimpleXX zum Traumjob - Ihr Weg zum Erfolg!

Software Engineer (m/f/d) with SharePoint experience

Start today as Software Engineer (m/f/d) for brighter future. We are looking for a suitable candidate to support one of our clients in London or Nuremberg. Your tasks are, but not limited to, to lead the Sharepoint development and help them to build great solutions. With over 9,000 employees, our client is one of the world's largest providers in its sector and, with over 9,000 employees, the market leader in Germany and in the Top 5 worldwide. Demanding jobs await you in an innovative and international work environment. Do you have high self-motivation and commitment? Then apply today for our job offer!

Your responsibilities:

- Write effective, scalable code
- Ability to build clean, well encapsulated solutions to a high standard
- Suggestions and ideas on how to solve customer problems in the best way
- Be current with the latest trends in industry and academia and always look to implement novel ideas in the clients Microsoft eco system
- Promote a culture of excellence and continuous learning and improvement by sharing knowledge within the technology department
- Work closely with engineering and product managers to translate business use cases to workable solutions that can be delivered to production

What we are looking for:

- Several years of project experience in MS SharePoint development
- In-depth knowledge of .NET
- Solid expertise with React framework, HTML/CSS, JavaScript/TypeScript
- Good knowledge of Git and CI/CD
- Development of software modules and SharePoint solutions
- Experience of TDD and implementing it
- Familiarity with Agile Frameworks
- Ability to translate and clearly communicate sophisticated analytical information To none-expert stakeholders and clients

Location: London or Nuremberg

Start Date: ASAP or upon agreement

Please send your application documents (CV, Certificates, Salary Expectations) referring to **Software Engineer (m/f/d) SharePoint** to bewerben@go-simplexx.de
